August 2005

Interview with Carlos

Carlos is one of our students from Brazil. Here's an interview between him and Tanya, one of our student counsellors.

Carlos, how long have you been in New Zealand? Why have you chosen to visit this country?

I have already been here for 11 months, and everyday still brings me something new to discover . I think it's a great idea to study in New Zealand because we can spend less money than in the US or UK and still get quality education together with new experiences.

How can you describe New Zealanders?

New Zealanders are extremely friendly people I was thrilled at how nice they always were to me. You know, in some countries people just don't care about anything and anyone around them because they are very busy. This is not the case in New Zealand. Everyone was interested in me as a foreigner, people wanted to learn more about other cultures. Also they are always ready to help which is very important.

How long have you been studying at St George Institute of Learning?

I've been here for 3 weeks, unfortunately I'll have to go back home soon because my visa expires. Anyway, I feel I have made great progress in my writing skills considering I wasn't able to write in English at all when I arrived. I can say that my class is really good as I never fall asleep during a lesson! My teacher, Kevin, keeps me awake in different, challenging ways. I don't feel that I come to the class to have rest, I come to be stimulated. Most of all, I don't like to waste my time

Academic Team

St George promises to bring out quality training to our students. All members from our team are qualified and well-trained.

The picture shows some of our academic and administration staff who will be able to assist all of our students. Kindly browse through our website at <http://www.stgeorge.ac.nz/academicTeam/academicTeam.htm> to find out their backgrounds and qualifications.
