~At St George, we believe in Quality~

January  
2005

Greetings and Happy New Year  
from the Principal !

Welcome to the St George community for another year!

2005 promises to be a year of new attainments and opportunities as the IELTS test becomes an even more important avenue to university, our Certificate courses get a new lease of life and the degree courses offered through the Open Polytechnic of New Zealand get underway. The challenge to excel is before us all and it is important we adopt a positive approach in these initial months of the year.

The boxing Day tsunami made waves round the world and reminded us how fortunate we are to live in New Zealand. The biggest shocks we encounter are surprises like a break in the weather allowing our 2005 picnics to go ahead. Each and every New Zealander has given over two dollars for the sufferers as a whole so distance from the event has not decreased our appreciation of the need. Perhaps the misfortune also can spur us to use our own time well.

May 2005 bring us new friendships as strive for ever higher standards. My hope is that all involved with St George Institute of Learning will do their best in the coming months to set priorities and achievable goals that will lead to really significant growth and development.

You are welcome here, and are invited to push your personal and academic boundaries to the limits of your strength. We want quality performances as much as you want success.

Warm regards  
Kevin Moncur

## Welcome to our new Russian students!

Welcome to our two new students, Tony & Alex, from cold Russia!

Tony and Alex have been in Auckland for just one week, yet they have already got sunburnt after visiting the beautiful beaches of Auckland. They are going to study at our English class and wish to pass IELTS in three months. All the best with your studies, Tony & Alex! Good Luck!
