What is so attractive about Auckland?

Attraction 1: Sky Tower

The Sky Tower, one of New Zealand's most exhilarating and spectacular tourist attractions, at 1,076ft (328m), is the tallest building in the Southern Hemisphere and has unforgettable views over the city, the harbour and the gulf islands.

It is part of the Sky City Entertainment Complex, with a casino, theatre, hotel and conference centre. Visitors to the tower can splash out on dinner in the revolving restaurant, or admire the view from one of the four circular observation decks, reached by a glass fronted lift.

There is an outdoor deck, glass floor panels, an audio visual guide and touch computer screens providing geographical information. The Sky Deck is the highest viewing level and has spectacular 360-degree views.

Story about Easter & Easter Holiday Break Dates

Easter is a time of springtime festivals. In Christian countries Easter is celebrated as the religious holiday commemorating the resurrection of Jesus Christ, the son of God. But the celebrations of Easter have many customs and legends that are pagan in origin and have nothing to do with Christianity.

Happy Easter!

Traditions associated with the festival survive in the Easter rabbit, a symbol of fertility, and in colored Easter eggs, originally painted with bright colors to represent the sunlight of spring, and used in Easter-egg rolling contests or given as gifts.

To honour this festival, our school will be closed for the Easter Holiday. Our final day is 24 March 2005 and we commence again on Monday 4 April 2005. All the staff at St George wish you peace and joy this Easter.
