September 2006

Spring

Yes spring. In New Zealand the first of September is the traditional first day of spring. In Auckland around this time of year the weather is beginning to heat up, although there is still a fresh chill in the air. Spring means one main thing in Auckland and that is rain. For the rest of the country it is a time of spring lambs, Daffodils and all things coming into blossom. The country is full of color and expectations. Spring means that summer is just around the corner and nothing can beat a New Zealand summer. For this spring period the students are given one week's holiday, this will occur September 11th – 18th. So the students can relax and enjoy a bit of New Zealand in the Spring time.

New Afternoon classes

There are several new afternoon classes now available at St. George. Drama aimed to help get students to use the English language in different ways. Presentation class which is for higher level students, in this class the student are given a topic to prepare a 1–2 minute talk on. After the students have given their talk they receive feed back, which is followed by a time of discussion to further expand the topic. Both these classes are going well and the students enjoy attending them.
